DETAILED ACTION

This communication is the second and final action on the merits of the instant application as amended on September 24, 2008. Claims 14 – 26, as amended, are pending.

Response to Amendment

Receipt of Applicant's Amendment, dated September 24, 2008 is acknowledged.

Applicant's Amendment overcomes previous 35 USC § 103 Claim Rejections in the First Non-Final Office Action dated June 24, 2008.

Response to Arguments

1. Applicant's arguments (see Applicant Argument, filed September 24, 2008) with respect to Claims 23 and 24 have been fully considered and are persuasive. The rejection of Claims 23 and 24 has been withdrawn.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

The prior art or record does not teach nor suggest a motorcycle in which a locking device can be stored wherein the right and left arm sections of the locking device are located on both sides of the spring unit (as recited in Claim 14).

The prior art or record does not teach nor suggest a motorcycle in which a locking device can be stored such that the locking device is located lower than the muffler (as recited in Claim 22).

The prior art or record does not teach nor suggest a motorcycle in which a locking device can be stored such that a portion of the locking device is outside of the seat rails (as recited in Claim 24).

US Patent 6,860,359 discloses a motorcycle with storage for a locking device, but the locking device does not surround the spring.

US Patent 6,588,529 discloses a motorcycle with storage for a locking device, but the locking device is not side-by-side with the exhaust.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US Patent 7,428,833 discloses a locking device installed on a vehicle, but is uses a cable not a lock arm.
